Future and Past Graduates:

I hope this year has found you well and your job hunts are promising. I write to let you know about a secondary math teaching position at St. Ignatius High School. If you’ve never been, St. Ignatius is located 40 miles North of Missoula and 30 miles south of Polson and beautiful Flathead Lake. If you like scenery and enjoy the outdoors, this place is hard to beat. We are also in the middle of running a $5.2 million school bond, to add an auxiliary gym/new shop/remodel our music department and update other existing facilities.

This job is for a high school math position teaching various levels of classes. We can arrange the schedule some, to fit your level of comfort and preference. The ability to teach physics is preferable, but not an absolute. Don’t let this deter you from applying. We may also have some head and assistant coaching positions coming open, if that is something that interests you as well. Salary starts at $31,339 and maxes out at $43,711, depending on your experience and level of education, Bachelor’s or Master’s degree holder. We are a very progressive school that is an MBI – Montana Behavioral Initiative gold standard award winning school. We’re in good shape financially and hold on to our teacher’s after being hired. If you’re interested in the position please fill out our district application along with a resume, letter of interest, and three reference letters. Applications are available on our website http://www.stignatiusschools.org. If you have further questions or just need to know more please feel free to contact me at shendrickson@stignatiusschools.org or 406.745.3811 x301. Specific details can be found on the OPI – Jobs for Teachers site, http://metnet.mt.gov/TPlacement/I036CC1E4. Thank you and I look forward to hearing from you.

With Regards,

Shawn Hendrickson
Principal
St. Ignatius Middle/High School
